STUDENT TEACHERS
COORDINATION
WITH THE COLLEGE

The Superintendent is authorized to negotiate and approve an agreement with a college or university to establish a student teacher program in the District.

The Superintendent or designee will coordinate with principals the institution's requests for placement of student teachers, to determine whether placements are possible in the grade levels or subject areas requested. The college supervisor will be notified of accepted placements.

ASSIGNMENTS

Assignments of student teachers will be made with the approval of the principal.

No teacher in the District will be assigned a student teacher without giving consent and completing whatever supervisory training is required by the college or university.

A student teacher may be assigned to a teacher with no fewer than three years of teaching experience.

A supervising teacher will not be assigned more than one student teacher per school year.

A supervising teacher will be responsible for the class and will not delegate responsibilities until the student teacher has displayed the proficiency to accept them.

A student teacher will assume the same working conditions as the supervising teacher, in terms of the length of workday, responsibilities for supervision of student activities, and requirements for attendance at staff meetings and staff development sessions.
